

**Supplemental User Note 1:
State-Country Code Lists**

Numerical Identification Files (NUMIDENT)
TR-0047-2013-0013
Records of the Social Security Administration (Record Group 47)

Attached are the code lists for the NUMI-POB-STATE-COUNTRY fields in the SS5 and Claim records. There is one code lists for U.S. state and territories and a separate code list for foreign countries. The code lists are also preserved electronically as tab-delimited files (U.S. state and territory codes: NUMI_GCBRTHST.txt; foreign country codes: NUMI_GCBCNTRY.txt).

In reviewing the code lists, staff noted that several of the codes on the U.S. state and territory code list are the same as on the foreign country code list. For example, the code CA shows up on the state list as California, but also shows up on the country list as Canada. Thus the code CA could mean California or Canada. Users should review both code lists to identify codes that may have both a state and country meaning.

The NUMI-POB-FOREIGN-IND field indicates if the coded value is for a foreign county and thus the foreign code list should be used for the meaning in NUMI-POB-STATE-COUNTRY.

For example, if NUMI-POB-STATE-COUNTRY field contains CA and the NUMI-POB-FOREIGN-IND contains “f” in the public use versions, then the meaning of CA is Canada¹. If NUMI-POB-STATE-COUNTRY field contains CA and the NUMI-POB-FOREIGN-IND is blank, then the meaning of CA is California.

¹The code for the NUMI-POB-FOREIGN-IND was originally an asterisk (*). In the public use versions, NARA converted the * to the lowercase letter f (for foreign). See Supplemental User Note 4.

Lynn Goodsell, Reference Branch Chief
